EXPERIENCE

Product Analyst Intern January, 2024 - Present
Motadata *Ahmedabad, Gujarat*

- Drive innovation by proposing and conceptualizing new features for Motadata ServiceOps, elevating the ITSM product's functionality.
- Collaborate closely with development teams, ensuring efficient communication for the seamless integration of proposed features.
- Iterate and refine feature proposals through active engagement with cross-functional teams, aligning with market trends and user needs.

Web Development Intern June, 2023 - July, 2023
The Special Character *Ahmedabad, Gujarat*

- Developed a pizza ordering and delivery system using React.js, leveraging its component-based architecture for efficient and maintainable code.
- Employed Tailwind CSS to style the application, ensuring a visually appealing and responsive user interface that enhances the overall user experience.

Summer Intern May, 2023 - June, 2023
TatvaSoft *Ahmedabad, Gujarat*

- Led the development of an impressive online book store website using React.js, demonstrating the ability to take ownership of a project from conception to delivery.
- Worked seamlessly with a cross-functional team, actively participating in meetings and ensuring effective communication to meet project milestones.

PROJECTS

Portfolio Website: Spearheaded the development of a personalized resume/portfolio website using Next.js for seamless server-side rendering and improved performance. Applied a minimalist and responsive design approach with Tailwind CSS, ensuring an optimal user experience, while incorporating dynamic animations through Framer Motion for enhanced engagement.

Salas Analysis: Utilized various Tableau features such as filters, calculated fields, sets, groups, and charts to create interactive and dynamic reports. Analyzed sales data and identified trends, patterns, outliers, and opportunities for improvement.

Customer Analysis: Developed a sales analysis dashboard using Tableau to visualize and monitor the performance of different products, regions. Leveraged various Tableau features such as maps, scatter plots, and box plots to display the distribution and relationship of customer attributes.

LEADERSHIP

Solution For Traffic Clearance In Advance For Emergency Vehicles.(Team Leader)

- Analyzed various solutions and identified the best approach for providing advance traffic clearance for emergency vehicles.

- Developed a comprehensive review paper outlining the recommended solution based on careful analysis and synthesis of existing research.
